## **7. WHO WE MAY PROVIDE YOUR PERSONAL INFORMATION TO AND WHY**

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care Services, important information about you is collected to help ensure you get the best possible care and treatment. This information may be passed to other approved organisations where there is a legal basis, to help with planning services, improving care, research into developing new treatments and preventing illness. All of this helps in providing better care to you and your family and future generations. However, as explained in this Privacy Notice, confidential information about your health and care is only used in this way where allowed by law and would never be used for any other purpose without your clear and explicit consent.

We may pass your personal information on to the following people or organisations, because these organisations may require your information to assist them in the provision of your direct healthcare needs. It, therefore, may be important for them to be able to access your information in order to ensure they may properly deliver their services to you:

## **N. PRIMARY CARE NETWORK**

We are a member of the **Hambleton South Primary Care Network**. This means we will be working

closely with a number of other Practices and health and care organisations to provide healthcare services to you.

During the course of our work we may share your information with these Practices and health care organisations/professionals. We will only share this information where it relates to your direct healthcare needs.

When we do this, we will always ensure that appropriate agreements are in place to protect your information and keep it safe and secure. This is also what the Law requires us to do.

If you would like to see the information the PCN holds about you, please contact Wendy Hunter at the Surgery.

- O. **Extended Access** – we provide extended access services to our patients which means you can access medical services outside of our normal working hours. In order to provide you with this service, we have formal arrangements in place with the Clinical Commissioning Group and with other practices whereby certain key “**hub**” practices offer this service on our behalf for you as a patient to access outside of our opening hours. This means, those key “**hub**” practices will have to have access to your medical record to be able to offer you the service. Please note to ensure that those practices comply with the law and to protect the use of your information, we have very robust data sharing agreements and other clear arrangements in place to ensure your data is always protected and used for those purposes only.

The key **Hub** practices are as follows:

Dr Trzeciak & Partners  
Lambert Medical Centre  
Topcliffe Surgery  
Glebe Surgery, Bedale

- P. **Data Extraction by the Clinical Commissioning Group** – the clinical commissioning group at times extracts medical information about you, but the information we pass to them via our computer systems **cannot identify you to them**. This information only refers to you by way of a code that only your practice can identify (it is pseudo-anonymised). This therefore protects you from anyone who may have access to this information at the Clinical Commissioning Group from **ever** identifying you as a result of seeing the medical information and we will **never** give them the information that would enable them to do this.

There are good reasons why the Clinical commissioning Group may require this pseudo-anonymised information, these are as follows:

- a) To monitor the provision of services
- b) To improve the quality of services
- c) To carry out audit and review outcomes of services

#### Q. **Third Party Processors**

In order to deliver the best possible service, the practice will share data (where required) with other NHS bodies such as other GP practices and hospitals. In addition, the practice will use carefully selected third party service providers. When we use a third party service provider to process data on our behalf then we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating appropriately. Examples of functions that may be carried out by third parties includes:

- a) Companies that provide IT services & support, including our core clinical systems; systems which manage patient facing services (such as our website and service accessible through the same); data hosting service providers; systems which facilitate appointment bookings or electronic prescription services; document management services etc.
- b) Delivery services (for example if we were to arrange for delivery of any medicines to you).
- c) Payment providers (if for example you were paying for a prescription or a service such as travel vaccinations).

Further details regarding specific third-party processors can be supplied on request.

**PUBLIC INTEREST:** Where we may need to handle your personal information when it is considered to be in the public interest. ## **24. NHS DATA – OPT OUTS**

### **Type 1 opt-outs - clarification of position**

The Government has accepted the National Data Guardian's recommendation for a single data opt out to replace Type 1 and Type 2 opt outs. As set out in the response to the NDG's recommendations the government has committed to consult with the National Data Guardian before confirming the removal of the Type 1 opt out. Until that time the Type 1 opt out continues to operate.

### **General Practice Data for Planning and Research data collection (GDPR)**

Patient data from GP medical records is used every day to improve health, care and services through planning and research, helping to find better treatments and improve patient care. The NHS is introducing the GDPR data collection to support this which will start from 1 July 2021.

NHS Digital will collect, analyse, publish and share patient data to improve health and care services for everyone.

The data collection will provide a comprehensive and frequent (daily) extract of patient level and linkable data from the GP system suppliers. All identifiable data items will be pseudonymised by the GP system suppliers and flow to the NHS Digital's Data Processing Services (DPS). Once the pseudonymised data lands in DPS it is stored securely. The data is able to be linked to other data collections, subject to approval from IGARD / DARS, and/or made available for approved uses both internally to NHS Digital and externally to customers. All data is transmitted and stored in encrypted form.

This will not impact on Type 1 Opt Outs or the National Data Opt Out. If a patient sets a Type 1 Opt Out (which prevents sharing of data outside the GP practice for anything other than individual care) this prevents GDPR data collection.

If a patient sets a National Data Opt Out (which prevents confidential patient information being shared by NHS Digital with other organisations for purposes except individual care) this does not apply to the GDPR collection.

The NHS Digital Privacy Notice on the GDPR is available here <https://digital.nhs.uk/data-and-information/data-collections-and-data-sets/data-collections/general-practice-data-for-planning-and-research/gp-privacy-notice>

This provides more detail and also sets out the legal basis for the data collection.

## **25. Medicines Management**

Your GP Practice supports a medicines management review service of medications prescribed to its patients. This service involves a review of prescribed medications to ensure patients receive the most appropriate, up to date and cost-effective treatments. This service is provided by qualified and registered healthcare professionals from within the GP practice, our NHS Primary Care Network, NHS North Yorkshire Clinical Commissioning Group or by external partners approved by the GP practice. Patient identifiable information does not leave the practice system but is accessed to ensure only appropriate clinical recommendations or decisions are made for each patient. Each patient can opt

out of (or back into) the practice using their data for anything other than specified purposes or where there is a lawful requirement to do so.

**26. WHERE TO FIND OUR PRIVACY NOTICE**

You may find a copy of this Privacy Notice in the Surgery's reception, on our website, or a copy may be provided on request.

**27. CHANGES TO OUR PRIVACY NOTICE**

We regularly review and update our Privacy Notice. This Privacy Notice was last updated on 22<sup>nd</sup> July 2021
